If you are looking for a sign company that offers products with great value, great functionality, and exceptional customer service, Golden Rule Signs will not let you down. They worked closely with our school every step of the way from helping us select a sign that met our needs and most importantly our budget, to designing a customized sign that could be installed easily into the existing space of our former sign saving us money and installation costs. Throughout the whole process they were flexible, patient, responsive, resourceful, and always a pleasure to work with. We couldn't be more pleased with our investment in a powerful communication tool that is so easy to manage, has truly transformed the gateway to our school, and will serve our families for many years to come.

Thanks,

Alisa - Diamond Creek Elementary Parent Teacher Club, Roseville, CA
