Golden Rule Signs
401 W Main – Suite 2100
Louisville KY 40202

It is with pleasure that I write a testimonial letter for Golden Rule Signs. The Prairie City Booster Club installed an electronic message board purchased from Golden Rule Signs in July 2012.

The hardest part of this project was actually the fundraising to purchase the sign. The purchasing process was all done over email and telephone and was as easy as measurements, quotes and ordering. We were fortunate to work with our local City Hall to place the sign on City property with existing posts and electricity. I sent measurements and pictures of the site to Golden Rule and they sent quotes for different types of signs that fit our criteria. They also included a mock-up of what the end product might look like to help with fundraising presentations.

Installation was accomplished with the donation of time by volunteers and a forklift. We did hire an electrician for the hookup and installation of the wireless. I do the programming of the sign on my personal laptop at home. Because I live a distance from City Hall, I take my laptop to town and upload the new program through the wireless. I never have to leave my pickup. The program is easy to work with and there is good support over the telephone if you have any questions.

There were a couple of hiccups along the way, one computer ribbon was bad when installed but Golden Rule replaced it the following week. We also had a module for the time and temp go bad, it was also replaced very quickly. Since then the sign has worked without any issues and has become a great addition to our community.

If you are considering a project of this type, I would recommend you contact Gold Rule Signs – they are a great group of people to work with during the purchase process, installation process and after.
